

# Getting Started with AWS Projects

 miguelhhuerto@gmail.com

# Why AWS?

I'm learning AWS because I want to delve deeper into the world of tech as rapidly evolves everyday. Cloud computing is a space that is ripe with opportunity for the future, and I want to be a part of this new step for technology.

## My Project Goals

I'm challenging myself to complete 5 projects in 7 days

## You might be wondering... what's AWS?

AWS is a cloud computing service wherein Amazon provides its users resources for various needs such as running a web application, storing files, etc.

# How I'll reach my goals

I'll make learning fun and rewarding by giving myself a small treat for every major project finished.

I'll make to for doing projects by setting a schedule for my learning. I'll set aside set hours for learning theory and doing projects.

To rest and recharge, I will drink hot milk.
